

## FLIP SIGN VA-1

Flip-sign VA - 1 is a pneumatically controlled warning sign for installation on vehicles for road work. VA - 1 flips between transport position and working position. The flip-sign is controlled between these two positions from the driver's cabin with a simple button switch change. This feature increases safety and saves time. The signs have a robust design and are made of stainless steel/aluminum and all parts are changeable. The signs are pneumatically operated and only use a small amount of air..

*Flip-sign in transport mode*

*Flip-sign in working mode*
